

Step-by-Step Sea Turtle Silhouette

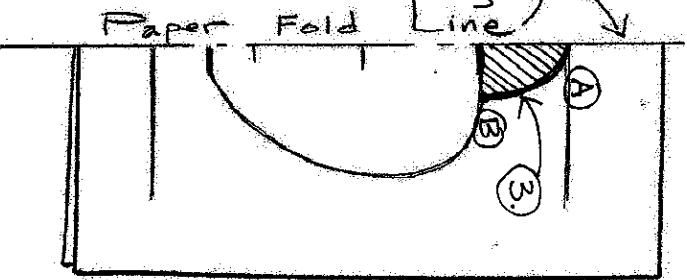

1. Fold your paper in half and mark the size you want your finished turtle to be. (A)

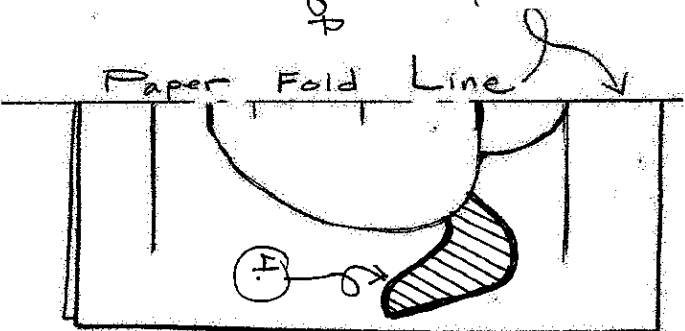

2. Following the video - mark the size of the shell. (B)
Draw the curved outline of the shell.

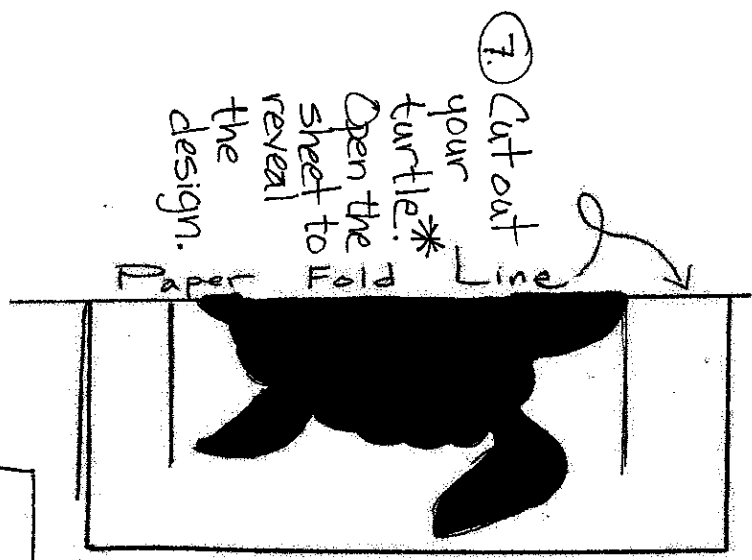

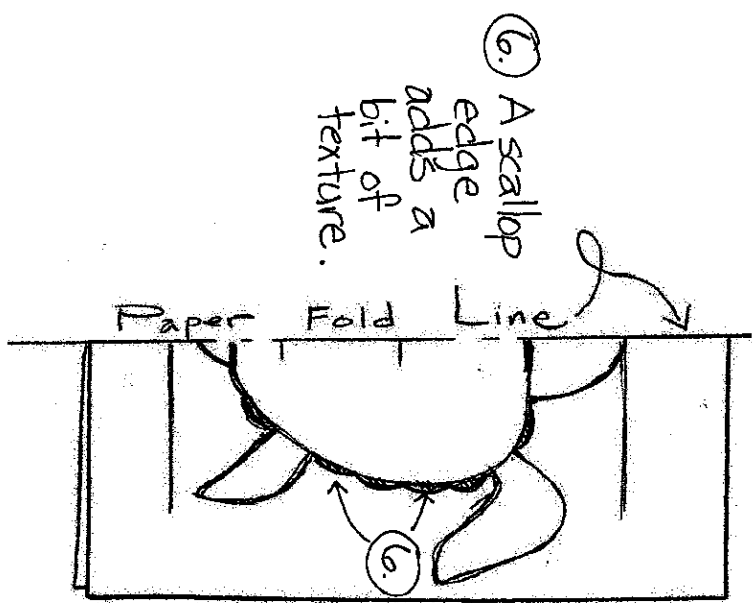

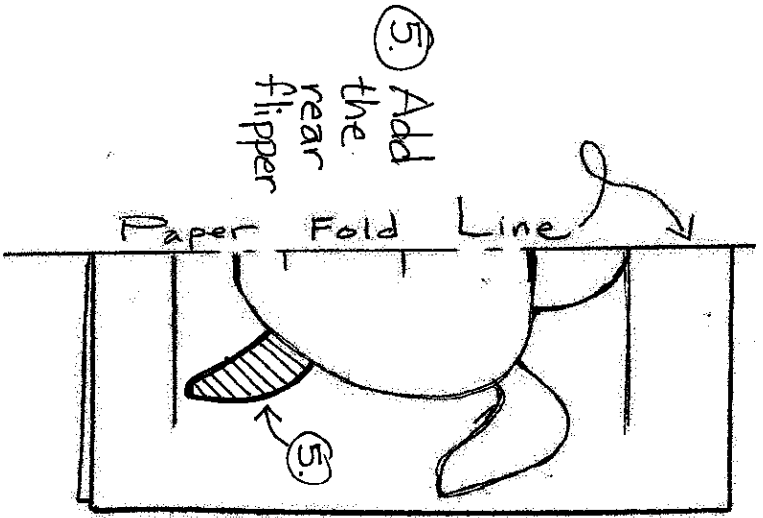

3. The head will be the distance between mark A & B.

4. The front flipper is placed on the curve of the shell

* We will use the "outside" portion as a stencil.
The video will explain how.
